LPG Distribution

Astor Gas, operating in the strategically advantageous location of Jahanian, District Khanewal, is a storage, distribution, and marketing entity that has been in operation since 2017. Our operations encompass the storage, distribution, and marketing of LPG, positioning us as a reliable entity in the energy sector.

Our facility is equipped with a storage capacity of 100 Metric Tons of clean LPG with a filling capacity of 20 Metric Tons per day. This capacity allows us to maintain a steady supply of LPG, ensuring that we can meet the needs of consumers effectively. By delivering clean LPG safely and securely, we cater to the demands of end consumers in the nearby region, ensuring they have consistent access to this essential energy source.

In addition to serving the local market, our facility serves as an operating base for LPG shipments across Pakistan. We utilize an international standard clean LPG

transportation fleet, which ensures that our product is transported with the highest safety and quality standards. This extensive distribution network underscores our commitment to providing reliable energy solutions nationwide.

Recognizing the current gas supply gap in Pakistan, we are also expanding our presence in the bulk LPG supply sector. By partnering with local registered distributors, we aim to increase the availability of LPG, thus contributing to the stability and growth of the country's energy resources.

At Astor Gas, our dedication to safety, quality service, and operational excellence makes us a trusted provider in the LPG industry, committed to addressing the evolving energy needs of Pakistan.
